

*Your Source for Hard - to - Find Catalytic Converters*

## *Decarbonizing Products 2015*

**For Professional Use Only**

**Run-Rite®**  
**SLEDGEHAMMER!**  
Induction Cleaning Kit

Use prior to converter replacement  
Helps remove carbon, soot & varnish deposits  
Maintains air flow and helps improve catalyst efficiency  
Removes deposits from valves, injectors & combustion chambers

**"Take a Sledgehammer to P0420 Codes!"**

# Take a Sledgehammer to PO 420 Codes

*Run-Rite Products Specially Designed  
With Davico Manufacturing*

Part No.	Case	Order	Product	List
1512CS	12	Case	16 fl. Oz. Sledgehammer	\$ 420.00

## SLEDGEHAMMER Fuel System Ultra Treatment 12oz

A “double espresso” shot of the highest concentration of superior detergent additives, designed to drive out dirt and deposits. Rapidly removes deposits from fuel injectors, intake valves, ports & combustion chambers. The “Hammer” helps reduce emissions, improve acceleration and reduce octane requirements. The “Hammer” also helps to keep Catalytic Converters free of carbon and soot maintaining their efficiency.

Part No.	Case	Order	Product	List
1540EA	1	1	2-Step Induction Kit Each	\$ 70.00
1540CS	6	1	2-Step Induction Kit Case	\$ 420.00

## Davico 2-Step Induction Kit

A specially designed kit for Davico Manufacturing including the “Sledgehammer” Fuel System Ultra Treatment and the “Sledgehammer” RID Rapid Induction Deposit cleaner. This LOW VOC Compliant aerosol induction cleaner is designed for fast service times and is safe for O2 Sensors & Catalytic Converters. Available each or by the case of (6).
