

# SALES MANAGER GLENN HAMBLETT PARTIALLY RETIRES.

*Join us in wishing Glenn the best in his partial retirement.*

## CELEBRATING A CAREER.

*by Ray Surprenant*

Long time national business development manager Glenn Hamblett has moved to a reduced schedule. Glenn will continue to work from home and support the team during his partial retirement. Glenn has been with Davico MFG. for over ten years and has enjoyed a long and successful career in the automotive aftermarket. Glenn's relentless focus on quality and world class customer service has led the sales team during Davico's rapid growth.

Glenn's technical training on successful converter replacement and emission system trouble shooting are widely regarded as industry best. Davico President Ray Surprenant said, "Glenn is simply a pro's Pro. He is always prepared, has expert knowledge, and was great in the room with customers which is fantastic combination." Glenn has made friends with many colleagues throughout the automotive aftermarket. Ray added, "Glenn made the job fun. We have had a lot of laughs both in the office and traveling around the country."

Liz DeMedeiros, Davico's Manager of Finance & Administration, worked with Glenn for 10+ years and added, "He really knows his stuff and gladly shares his experiences and knowledge with Davico's team and entire customer base. That, together with his always positive attitude, makes him an absolute Pro. I've always felt that Glenn is great at what he does and it shows!"

When asked for a quote about his career Glenn mentioned: "A wise man once said to choose a job you love, and you will never have to work a day in your life. That pretty much sums up how I feel about my career in the automotive aftermarket and feel very fortunate that I have had so much support and success." Please reach out to Glenn to say hello or to wish him well. You may see him at the occasional trade show or customer event, but please join us on congratulating Glenn on a fantastic career and wishing him a happy retirement!
