Davico encourages women to join automotive & manufacturing workforce

In the month of April we kicked off our Women of Davico initiative. An effort to encourage women to apply for positions with in the automotive and manufacturing industries.

Often it's intimidating and many women are misinformed into believing it's a male dominated industry. Once that may have been true but it is no longer the case.

Women of davico cnt'd...

Today we find more and more women have become integral parts of many automotive companies. Davico MFG wants to give these ladies with important skills an opportunity to thrive and grow. Our Customer Service team as well as our back accounting office is almost entirely 100% women. The welding department has 5 ladies welding catalytic converters daily. We'd like to invite anyone who thinks they might be a good fit to apply.

HOW TO APPLY!

Applying for a position at Davico is easy, you can go on to the Indeed website and search in the "what" & "where" fields as "Davico" & "New Bedford" Or you can come in and fill out an application in person. Thank you!

Machine shop expands once again

Robotics help stream line the manufacturing process. They aid in creating leaner practices which leads to increased out put, higher quality and more efficient cycles.

Here Davico is show casing it's newest additions. Owner Ray Surprenant sat down with us to explain each machine and its use within the converter manufacturing process.

Machine Shop Cont'd...

The new machines will be featured on our social media accounts such as FaceBook and Instagram over the new few weeks.

We will be posting individual machines every week with video and a brief explanation on what they do and how they benefit our production.

Please follow, like or subscribe so you can get first hand updates such as Machine Monday's and Tech Tip Tuesdays.

Fresh and ready for the show season

As Covid-19 starts to ebb to an end and things are returning to what we are accepting as normal, we can start to think about the up coming show season.

A new year means new products, new business, and for us... a new booth! Returning to the Aapex show we have completely renovated our design including new lighting.

Pictured right, two roll up banners for the smaller shows and conventions with a redesigned lay out.

A graphic with a dark background and a large, stylized yellow 'A' on the left. The text 'SAVE THE DATE' is written in large, bold, yellow capital letters. Below this, the Aapex logo is shown with the tagline 'ahead of the curve'. At the bottom, the event details are listed: 'NOVEMBER 2-4, 2021', 'SANDS EXPO & CAESARS FORUM', 'LAS VEGAS, NV | #AAPEX21'.

Come visit us at the start of November in Las Vegas!
